# EVOLUTION IN HIGH SPEED COOKING

#### HIGH SPEED COMMERCIAL COMBINATION OVEN

## The Amana<sup>®</sup> AXP20

The new AXP20 utilizes an innovative combination of convection, radiant and microwave technology to cook foods up to 15 times faster than traditional cooking methods.

### Key Features

- Combination of radiant, convection and microwave to quickly toast and heat a variety of products.
- Up to 360 programmable menu items simplifies cooking and ensures consistent results.
- Automatic voltage sensor automatically adjusts for 208 or 230 V installation.
- Catalytic convertor filters grease and odors from air.
- EZCard Menu Management System simplifies menu programming updates.
- User-friendly controls are easy to use and require minimal user training.
- Durable stainless steel exterior and interior for years of commercial foodservice use.
- Global service network provides on-going product support.
- UL-KNLZ certified for ventless installation
- Limited 3-year warranty.

AXP20

# A Powerful & Cost-Effective Way to ...

- Serve quality food, quickly
- Increase food sales and profits
- Cook fresher, hotter foods on demand

## Maximize Your Profits

The powerful Amana AXP20 is built to handle the fast pace and grueling demands of the busiest kitchens. It's a highperforming, heavy-duty unit that's ideal for a broad array of foodservice applications.
